- Exceptional Time Management
- Self-Motivated & Proactive
- Effective Communication & Collaboration
- Resilient & Diligent
- Strategic Negotiation Skills
- Meticulously Detail-Oriented & Thorough
- Inspirational Work Ethic

GRANT BODDY

Computer Science

Cover Letter

To whom it may concern,

My name is Grant Wallace Boddy, and I recently graduated from Georgia State University with a bachelors degree in Computer Science. While obtaining my degree, I've also earned over 240 industry certifications, with more on the way. But what really sets me apart isn't just my knowledge, it's my relentless work ethic, drive, and commitment to growth. My path here wasn't traditional, but I truly believe that's a good thing.

I'm what some call a "late learner", which is a polite way of saying I took the scenic route. After high school, I spent years managing some very famous influencers and touring nationally. In between the tours I had to work some extremely physically demanding jobs that built my discipline, teamwork, and leadership skills. (Pro tip: waking up at 4 AM for warehouse shifts and stacking barrels in 100 degree weather builds character fast.) I'm not afraid of hard work, and I show up on time, every time, with energy and focus. I credit these jobs for giving me the kind of grit, discipline, and persistence that my classmates haven't had to develop yet and that few of my peers can match.

Right now, I'm just looking for an opportunity to get my foot in the door. A place where I can learn, grow, and prove myself. I know that if given the chance, my work ethic, positive attitude, adaptability, and personality will make me a strong addition to your team as well as someone your team can depend on. I'm a fast learner, a supportive team player, and someone who puts 110% into every task.

Thank you for your time and consideration. I'd love the chance to speak further and show you what I can bring to the table.

Sincerely,

Grant Boddy
